AERONAUTICAL CHART SUPPLY

1. Aeronautical Charts, Maps and Publications furnished by the Aeronautical Chart and Information Center are issued or listed in the current edition of the "USAF Catalog of Aeronautical Charts and Aeronautical Information Publications". A Bulletin is also published once monthly which contains important information such as new editions of charts available, replacement charts, hazardous charts, chart correction notices and other pertinent information pertaining to charts and supply.
2. Requisitioning.
 - a. Outside Continental United States: USAF activities are to submit requisitions to the appropriate Aeronautical Chart and Information Office located within the applicable theater. In accordance with existing theater directives.
 - b. Within Continental United States: USAF activities are to submit requisitions to the Commander, Aeronautical Chart and Information Center, 2nd and Arsenal Bldg., St. Louis 10, Missouri, Attention: Distribution Division. Requisitions will be submitted on available requisition forms or by letter to headquarters. When direct support, new series may be issued. Requisitions submitted from a Base or Station will bear the signature, or approval by endorsement, of the Operations officer. Requisitions from Air Force, Wing, or Command Headquarters will bear the signature of the appropriate staff officer. Quantities of charts and maps requested are to be such as to insure the replacement of a thirty (30) day supply at all times, but not to exceed a sixty (60) day supply.
3. USAF Requirements for Special Purpose Maps and Charts: Maps and charts for special purposes, specific situations, and also those maps and charts published by other government agencies which may not be listed in the current edition of the "USAF Catalog of Aeronautical Charts and Aeronautical Information Publications" should be requested from USAF Aeronautical Chart and Information Center, 2nd and Arsenal Bldg., St. Louis 10, Missouri. For those USAF requests originating outside the continental United States, the applicable theater USAF Aeronautical Chart and Information Office should be contacted. Charts will be furnished, if available, when authority is identified in requisition to insure or determine such information and facilities. If this information is unknown to requisitioner, a description of the information required on chart or map should be furnished.
4. Obsolete Charts: Aeronautical charts rendered obsolete by printing of a new edition shall be salvaged if not practicable to correct for uniformity with new edition. Disposition is to be made in accordance with provisions of AFM 1-1. Disposition of obsolete charts is to be made in accordance with provisions of AFM 1-1.
